

# School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

## Our Vision Statement:

Painted Hills Middle School will provide the opportunity for success in all aspects of life by empowering students to develop a strong, safe, collaborative community and become respectful and responsible members of society.

## Our Mission Statement:

Painted Hills Middle School will prepare our middle school students for high school by equipping them with the social and academic skills needed to succeed and become college and career ready.

# School Profile

Painted Hills Middle School (PHMS) is a newer school located in the City of Desert Hot Springs, California. It is one of five middle schools in the Palm Springs Unified School District. It serves sixth, seventh, and eighth grade students from Desert Hot Springs, Whitewater, Painted Hills, North Palm Springs, and Sky Valley. Painted Hills Middle School is in its 9th year of operation and served approximately 800 students. The ethnic composition of the school is 10% African American, 72% Hispanic, 13% White, and 5% Other (Native American, Korean, Chinese, Asian Indian, Other Asian, Samoan, Filipino, Two or more races). Approximately 23% of the students enrolled at the school are classified as English Language Learners (ELL) and 13% of students are identified as having a disability (SWD). Approximately 87% of our students are receiving a free or discounted lunch and 100% of our students receive free breakfast in our innovative Breakfast-In-The-Classroom program.

PHMS has unique programs that are not in place in some other middle schools in our district. PHMS offers AVID (Advancement via Individual Determination); we have implemented AVID as a 6th, 7th, and 8th grade elective. In August 2016, we implemented the Positive Behavior Intervention and Supports (PBIS) framework to support positive social and emotional development as well as provide students with targeted interventions. The PBIS framework in conjunction with our established progressive privileges and discipline program, called Pupils Understanding Rules and Responsibilities Successfully (P.U.R.R.S.), allows students to earn merit points, tracked by PBIS Rewards, that can be exchanged for rewards and privileges. In addition, a four house system is currently being implemented modeled on the school within a school framework providing students with the opportunity to develop purposeful and trusting relationships with adults and provide opportunities for inter-school collegiate competitions. Our comprehensive fine arts program has been expanded with the addition of advanced band.

# Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

Schoolwide Program

Comprehensive Support and Improvement

The School Plan for Student Achievement (SPSA) identifies and addresses the instructional needs of students and specifies how categorical funds provided through the Consolidated Application will be used to accomplish the goals.

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Painted Hills Middle School (PHMS) Site Council (SSC) meets regularly during the school year to review and update the school plan including proposed expenditures of Title I and LCFF funds. School goals are based upon comprehensive needs assessment that includes the analysis of verifiable state data, including information displayed on the CA School Dashboard. Other district and school data, including interim assessments, are utilized to further measure and monitor achievement throughout the school year. School goals are aligned with PSUSD LCAP goals and include the same metrics/indicators. Input and advice is solicited from school advisory committees including the ELAC and School Leadership team. The PHMS School Plan addresses how LCFF and Title I funds will be used to improve the academic performance of all students and close student group achievement gaps. The 2019/20 plan includes additional Comprehensive Support and Improvement (CSI) funds that will be utilized to address four key areas of concern: student achievement in mathematics and language arts, chronic absenteeism, and school connectedness. Throughout the year, performance metrics linked to each of these four areas will be analyzed to determine effectiveness and modifications will be made accordingly.

# Stakeholder Involvement

How, when, and with whom did the school consult as part of the planning process for this SPSA/Annual Review and Update?

## Involvement Process for the SPSA and Annual Review and Update

State regulations require that the School Site Council (SSC) be the group responsible for developing and revising the SPSA in collaboration with the site instructional leadership team. Ongoing consultation with site advisory groups about student performance data, student needs, identified goals, appropriate interventions/preventions, and associated budgets is an integral part of the development and monitoring of the SPSA. (Ed Code 64001)

This ongoing involvement of the SSC in the review of the SPSA is a critical element of the annual planning cycle and should be reflected in meeting agendas and minutes. Documentation of SSC development, revision, monitoring, and evaluation of the SPSA must be maintained at each school in the SSC Notebook. All documentation must be maintained for seven years, plus the current school year.

The Painted Hills Middle School School Site Council (SSC) meets on the last Monday of every calendar month and takes a very proactive essential role in the annual review and development of the School Plan for Student Achievement. The twelve-member council comprised of six persons working at or attending the school, and six parents and/or community members. Each year SSC nominations are taken during Back to School Night and elections are held shortly after using Google forms. Nominations were taken on Thursday August 30, 2018, and elections were held the following week using Google forms.

The council chairperson works in conjunction with the school principal to develop the monthly agenda. The following items are routinely discussed during SSC meetings:

- Student performance data in both mathematics and language arts with a strategic focus on the English Learner (EL), African American (AA), and Students with Disabilities (SWD) sub-groups
- Orenda Education unit assessment data in both mathematics and language arts with a focus on EL, AA, and SWD sub-groups performance.
- Student discipline data
- Results/findings of the yearly administration of the Panorama Survey
- Review of current and proposed expenditures
- Proposals for consideration submitted by members of the Painted Hills Middle School learning community

English Learner Advisory Committee (ELAC) meetings were held separately from school site council on the following dates:

- September 14, 2018
- September 28, 2018
- October 26, 2018
- November 30, 2018
- February 8, 2019
- March 8, 2019
- April 5, 2019
- May 31, 2019

During these meetings the following agenda items were discussed in relation to the development of the SPSA:

- Professional development for parent around bi-lingual education.
- English Language Proficiency Assessments for California (ELPAC) review and practice
- Student score report analysis
- SBAC data share out
- Opportunities for parent involvement
- California Association for Bilingual Educators (CABE) conference preview and registration

During the school year different stakeholder groups were included in the conversation around and development of the SPSA. These include site leadership, Parent Teacher Student Association (PTSA) and content departments. All groups

were proactively involved in the development of the current school plan and were provided with opportunities to provide formal input, feedback, and suggestions.

During monthly meetings the three student members of council are routinely engaged in all decision making and attempts are routinely made to ensure that all information under discussion is clearly understood despite the content being complex in nature. During the first school site council meeting of the school year, detailed SBAC performance data is reviewed in detail by the site principal to ensure that all members of SSC are aware of student performance deficits and any needed areas of refinement.

For the 2019/20 school year PHMS was targeted as one of the schools receiving CSI funds in the amount of approximately \$169K. In early March 2019 a cohort of teachers and the school principal were invited to attend an information meeting at the district office during which clear directions and guidelines were provided as to how CSI funds may be utilized. This process included ongoing support from the district office and was facilitated by different directors and members of district leadership. Dr. James Feffer worked directly with the PHMS cohort to further develop the new school plan. A working draft of a plan was then shared with members of the school site council and ideas were proposed to address areas of concern- which were framed in the form of Problem Statements. For Painted Hills the following areas were identified as areas of needed refinement following an analysis of students achievement data, feedback from the Panorama survey and suggestions made by the CSI team: (a) improved student achievement scores in mathematics; (b) improved student achievement scores in language arts; (c) reduction in the level of chronic absenteeism; and (d) improve overall school connectedness ratings. Acting on guidance from SSC, Dr. Grainger, the school principal, revised the 2018/19 plan by adding many of the suggestions offered by the CSI team and members of SSC and presented it for review on Monday April 29, 2019 during the monthly SSC meeting. After lengthy discussion the plan was revised and sent out in draft form to all members on 05.05.19 for review before the approval meeting on Tuesday May 7, 2019.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

A review of student performance data following the administration of the 2017/18 CAASPP assessments and the administration of the five Orenda Education unit assessments during the 2018/19 school year revealed a need for additional academic support in the following areas:

- Math performance for Students with Disabilities (decrease of 13% in proficiency)
- Math performance for African American students (decrease of 13% in proficiency)

In addition, a review of student attendance and discipline data during the 2018/19 school year revealed a need for support in the following areas:

- Chronic absenteeism for African American students (38.2 % as of current dashboard metrics)
- Chronic absenteeism for Students with Disabilities (38 % as of current dashboard metrics)
- Overall suspension rates for African American students (42.9% as of current dashboard metrics)
- Overall suspension rates for Students with Disabilities (40.8% as of current dashboard metrics)

From an equity perspective, the Painted Hills learning community has a collective legal and moral obligation to make sure that both African American and Special Education students attending Painted Hills Middle School receive targeted interventions that result in improved learning outcomes, improved attendance at school, and improved behavior and school connectedness outcomes. The following initiatives have been added to the 2019/20 school plan to address these needs:

- Wakanda Academy
- Harriet's Daughters
- EDGE training support
- Positivit framework to address trauma informed needs of all students attending PHMS
- Additional mental health support

The Positive Behavior Intervention and Support (PBIS) framework that was implemented three years ago provides a multi tiered system of support to students' in terms of their social and emotional needs. Based on the work completed with current tier 1 and tier 2 students the following issues indicate the need for more sustained support in the following areas:

- Pervasive mental health concerns triggered by traumatic life events. All student sub-groups are impacted by these events.
- Systems to address the rate of chronic absenteeism currently standing at approximately 26%

- After school programs to address student interests and needs

The following initiatives have been added to the 2019/20 school plan to address these issues:

- A variety of after-school activity clubs based on student interests
- Addition of 7th period classes for all students to attend after the regular school day
- EDGE training opportunities for all teachers during their prep periods
- Boomerang Project: Student mentor program that provides an older mentor for all incoming 6th grade students

## Needs Assessment – Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward SPSA goals, local self-assessment tools, stakeholder input, or other information, what progress is the school proudest of, and how does the school plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for student groups, including low-income students, English learners, homeless youth, and foster youth have led to improved performance for these students.

English Language Arts indicator:

All Students (All) Orange (-59.7) - Maintained- Low (-1.9); English Learners (EL) Orange(-69)- Maintained- Low (-1.5); Hispanic (Hisp) Orange(-59)- Decreased- Low (-3.7); African American (AA) Red(-104)- Maintained- Very Low (1.4); Socioeconomically Disadvantaged (SED) Orange(-63.4)- Maintained- Low (-1.4); Students with Disabilities (SWD) Red(-160.8)- Maintained- Very Low (1.2).

Acellus learning licenses utilized for math and ELA intervention students. Tutoring offered twice a week in language arts and mathematics for all students. AVID tutors twice a week to work with AVID students in tutorials. Positive Behavior Intervention and Supports (PBIS) Rewards site license that assisted in shaping school culture with the goal of lowering student suspension rates.

To date 5 unit assessments have been completed using the Principal's Exchange framework for mathematics and language arts. The results have been mixed in both content areas across all grade levels. Student performance metrics indicate that 6th and 8th grade math interim math scores improved marginally over 2016/17 scores.

As of 10.14.19 one unit assessment has been completed using the Orenda framework for both mathematics and language arts. Comparing unit 1 assessment data from last year (2018/19) there was 14% growth in 6th grade math, 12% growth in 7th grade math, and 2% growth in 6th grade LA. At the beginning of the 2019/20 school year a detailed analysis of preliminary 2018/19 CAASPP resulted was conducted. There was a significant increase in overall student proficiency in both language arts and mathematics at the 6th grade level.

## Greatest Progress

Referring to the California School Dashboard, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category. Additionally, identify any areas that the school has determined need significant improvement based on review of state indicators, local performance indicators or other local indicators. What steps is the school planning to take to address these areas with the greatest need for improvement?

Mathematics indicator:

All Students (ALL) Red (-122.1) - Decreased- Very Low (-3); English Learners (EL) Red(-130)- Maintained- Very Low (-1.8); African American (AA) Red(-177.1)- Decreased- Very Low (-13); Students with Disabilities (SWD) Red(-234.2)- Decreased- Very Low (-13.2).

Suspension indicator:

All Students (ALL-896)- RED-18.5%- Increased- 1.9%;  
English Learner (EL- 237)- RED- 16.5%- Increased- 2.5%  
Hispanic (Hisp- 645)- RED- 16.1%- Increased- 4%  
African American (AA-84)- RED- 42.9%- Maintained- 0.1%  
Socioeconomically Disadvantaged (SED- 853)- RED-19%- Increased -1.5%  
Students with Disabilities (SWD- 103)- RED-40.8%- Increased- 10.5%

School connectedness indicator:

All students: 58% of all students responded favorably which was down by 8% from Fall 2017.

## Greatest Needs

English Learners: 62% of all English learners responded favorably.  
 African American: 47% of African American students responded favorably.  
 Hispanic: 60% of Hispanic students responded favorably.

A variety of different initiatives have been added to the 2019/20 School Plan for Student Achievement to address these areas of need. They are profiled in the preceding 'Resource Inequalities' section of this document.

All teachers who are teaching an inclusion class have been provided with a common prep period on the master schedule for the purpose of planning first best instruction and data analysis. The Principal's Exchange framework will continue to support teachers in the creation of robust research-based instructional agreements to improve student learning outcomes for English learners, students with disabilities, and African American subgroups. During each data reflection session a focus will be placed on the academic performance of our students with disabilities, English learners, and African American students. Teachers will collaborate around mutually agreed upon instructional agreements for these 3 subgroups. Emphasis will be placed on Thinking maps, QTEL strategies, conceptual understanding and learning in mathematics, and the use of station rotations to provide differentiated learning outcomes for all students.

As of 10.14.19 one unit assessment has been completed using the Orenda framework for both mathematics and language arts. Comparing the 2018/19 and 2019/20 student performance data there was a decrease of 12% in 8th grade language arts, a decrease of 6% in 8th grade mathematics, and a 9% decrease in 7th grade language arts.

At the beginning of the 2019/20 school year a detailed analysis of preliminary 2018/19 CAASPP data was conducted. Overall there was a 15% decrease in 8th grade language arts proficiency, and a 10% percent decrease in 7th grade language arts proficiency. Funds have been set aside to provide individual Reading Plus licenses for all 7th and 8th grade students, as well as the provision of after school tutoring services on Tuesday and Thursday afternoons. In addition, additional funds have been allocated to provide additional release time for all language arts teachers to engage in lesson studies with the language arts instructional coach.

Referring to the California School Dashboard, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. Additionally, identify any areas in which the school has determined there are significant performance gaps based on review of local performance indicators or other local indicators. What steps is the school planning to take to address these performance gaps?

A review of student performance data revealed a need for additional academic support in the following areas:

- Math performance for Students with Disabilities (decrease of 13% in proficiency)
- Math performance for African American students (decrease of 13% in proficiency)

In addition, a review of student attendance and discipline data during the 2018/19 school year revealed a need for support in the following areas:

- Chronic absenteeism for African American students (38.2 % as of current dashboard metrics)
- Chronic absenteeism for Students with Disabilities (38 % as of current dashboard metrics)
- Overall suspension rates for African American students (42.9% as of current dashboard metrics)
- Overall suspension rates for Students with Disabilities (40.8% as of current dashboard metrics)

From an equity perspective, the Painted Hills learning community has a collective legal and moral obligation to make sure that both African American and Special Education students attending Painted Hills Middle School receive targeted interventions that result in improved learning outcomes, improved attendance at school, and improved behavior and school connectedness outcomes.

The following initiatives have been added to the 2019/20 school plan to address these needs:

- Wakanda Academy
- Harriet's Daughters
- EDGE training support
- Positivit framework to address trauma informed needs of all students attending PHMS

## Performance Gaps

- **Additional mental health support**

Principal's Exchange framework of reviewing data from short cycle assessments and teacher collaboration around mutually agreed upon instructional agreements will allow focus to be placed on the academic performance of these subgroups with performance gaps. PBIS will continue to be implemented with additional development of Tier II interventions to support improved behavior outcomes for all students but especially for students with disabilities. African American students will be recommended to BRAAF (Building Resilience in African American Families) Rites of Passage program for additional academic and social support. An additional SPED FTE will be hired to help support improved outcomes both academically and behaviorally for our students with disabilities. ELA instructional coach will be hired to support first best instruction in language arts.

# Annual Review and Update

**SPSA Year Reviewed: 2017-18**

## Goal 1

**Palm Springs Unified School District Long Term Academic Achievement Goal:**

All students attending Painted Hills Middle School will meet grade level proficiency in common core content standards in the core academic subjects: English language arts, math, social studies and science as measured by the annual California Smarter Balanced Assessment Consortium assessments (SBAC). For the 2017-18 school year the LCAP aligned school goal was for and increase of between 3-5% in the number of students meeting standards proficiency in both mathematics and language arts.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Despite the implementation of the Orenda Education curriculum alignment framework during the 2017/18 school year, the various strategies/activities outlined above for goal 1 did not have the desired overall impact on student academic performance. While language arts student performance maintained with a slight decrease of 1.9% overall, student performance in mathematics was poor with an overall decrease of 3% (for all students) in the number of students meeting standards. Even more concerning was the performance of our African American (AA) and Students with Disabilities (SWD) subgroups which both experienced declines of 13%. Strategic focus must be placed on actions to increase the overall performance of these subgroups in the 2018/19 plan.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

After school tutorials in the four content areas did not provide the necessary academic support to improve overall performance on the Orenda Education unit assessments. Next year, the tutorial sessions will be restructured to focus on specific standards in both of the tested content areas. The language arts coach hired on contract at the beginning of the school year was not welcomed into classrooms by teachers which was reflective of the staff culture on the campus. All AVID linked resources were allocated as planned with the exception of the planned field trips which were canceled due to inclement weather. All planned professional development activities were provided to the learning community however, based on student achievement scores, this training has not translated into improved student achievement scores nor has it enhanced the overall teacher/student connectedness on campus. All purchased technology outlined under this goal, were placed into service in teacher classrooms to replace outdated and/or non-operational equipment.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

In order to address some of the concerns outlined above the following action items have been included in the 2019/20 plan of action:

- After school tutorial sessions will be provided to students based on analysis of Orenda Education unit assessment data and will focus on specific mathematics standards.
- All special education teachers have been provided with a common daily planning prep with their general education co-teach colleague, on the 2019/20 master schedule, to guarantee planning and collaboration time to develop quality lessons for all resource and SDC students.
- Following each of Orenda Education unit assessments, students will be provided with a fluid intervention in both mathematics and language arts for a duration of three weeks during which standard specific instruction will be provided to improve overall student mastery of these standards. Students will participate in these intervention classes for the two week periods during their elective class time. No funds are allocated to this intervention program as the framework is supported by the established 2019/20 master schedule.

### Goal 2

All schools in PSUSD ensure that they include the four mandatory Title I components in their parent Involvement and Participation Site Plan. These include; (1) involve parents in the Title I program; (2) create a school-parent compact will parent input; (3) build capacity for parent involvement; and (4) assure accessibility and opportunities to the school for parents. Each site also ensures that they align their site plan with the PSUSD district parent involvement plan.

There is a definite link between attendance and academic achievement. In addition, the District is significantly fiscally impacted as attendance increases or decreases. Beginning in the 2013-2014 school year, all elementary schools will have at least 96.5% attendance rates, all middle and high schools will have at least 96.5% attendance rates. Though PHMS did not meet the prior goal, it did experience a 0.45% increase in attendance.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Food items were provided to ELAC stakeholders to enjoy during monthly site meetings. Monthly ELAC meetings were held at the school site however despite numerous appeals for parent participation using a variety of different communication platforms, parent participation was poor. Due to a lack of staff support and parent desire, the planned parent technology classes were not provided as planned. Painted Hills Middle School has struggled to galvanize parent support and for this reason, two new initiatives have been added to the 2019/20 school plan. See below for details.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

As noted above, the Painted Hills learning community has struggled to galvanize parent involvement to support different initiatives on the school campus. All expenditures were executed as planned including sending several PHMS parents to the CAFE conference in Long Beach, California.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

The following activities have been added to the school plan for the 2019/20 school to improve overall parent involvement including:

- **Wakanda Academy;** This framework provides academic as well as social emotional support to all African American students and their families attending Painted Hills Middle School. Staffed by passionate African American PHMS teachers this structure will work on fostering positive home school relationships, improving academic learning outcomes for students, and developing a positive sense of connectedness for our African American students and families.
- **Harriet's Daughters;** This framework incorporates Science, Technology, Engineering, Art, and Mathematics (STEAM) concepts and provides academic support to approximately 50 African American female students currently attending the Painted Hills Middle School campus.
- **Coffee with the Principal;** In an attempt to galvanize parent support Dr. Grainger will offer ' Coffee with the Principal' once a month for all PHMS parents. Meeting times will be varied to accommodate parent scheduled and meetings will provide parents with an opportunity to share ideas, make suggestions, and collaborate with site administration.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Weekly discipline data have been shared with the entire learning community for the entirety of the 2018/19 school year. Staff have been provided with an overview of different teacher managed interventions that are available to help manage defiant and disrespectful student behaviors. While the number of discipline incidents has varied each week, the number of cumulative student suspensions during the 2018/19 school year has declined significantly over the previous year. Considerable work must be done in the area of student teacher relationship building and for this reason the entire staff at PHMS has been trained on the EDGE coaching model. New initiatives have been added to the 2019/20 school plan to provide ongoing support with the development and fostering of mutually respectful teacher-student relationships. The PHMS house system continues to provide opportunities for student leadership and innovative community service projects under the leadership of house captains, who were compensated for their work using LCFF funds.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

All planned expenditures linked to this goal, were executed however the activities and/or actions to which they were linked had mixed results. Overall the number of Sprigeo reports submitted by students during the 2018/19 school year declined by 7%; however, school connectedness ratings reported by students declined by 8% over the previous year. Students expressed concerns over campus safety, and reported that many of the teachers at PHMS did not treat them fairly which reflected an 18% decrease over last year.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

To address the reduction in school connectedness and increasing chronic absenteeism the following activities have been added to the 2019/20 school plan:

- Funding to provide teachers with EDGE coaching opportunities with students during their assigned prep periods.
- Boomerang Project (Where Everyone Belongs); School counselors will be provided with training on the creation of a student mentoring program whereby all incoming 6th grade students will be provided with an older peer mentor-typically an 8th grade PHMS student.

- A wide variety of after school clubs are being added to the after-school schedule to provide students with opportunities to stay after school and participate in fun and engaging activities. These clubs are based on input received from students using a survey document.
- Three 7th period classes are being added to the master schedule next year. These include additional band classes, an after school art class, and a Spanish elective class.

# Goals, Strategies, & Proposed Expenditures

## Goal 1

### Increase Academic Achievement

#### Goal Statement

Palm Springs Unified School District Long Term Academic Achievement Goal:

All students attending Painted Hills Middle School will meet grade level proficiency in common core content standards in the core academic subjects: English language arts, math, and science are assessed by the annual California Smarter Balanced Assessment Consortium assessments (SBAC). For the 2018-19 school year the LCAP aligned school goal was for and increase of between 3-5% in the number of students meeting standards proficiency in both mathematics and language arts.

#### LCAP Goal

All students will graduate high school prepared with the academic and technical skills necessary for college and career success.

#### Identified Need

1. Overall, in English language Arts we remain 59.7 points below standard and in Math we remain 122.1 points below standard indicating a need to improve first best instruction and support student needs through targeted interventions.
2. English Learners, Students with Disabilities, and African American outcomes are increasing at a lesser rate in mathematics than the "All Students" group indicating a need for additional targeted support for those identified student groups.
3. Core Growth model data indicates improvement rates are less than what would be projected in both ELA and Mathematics.
4. Although most student groups either maintained in their distance from met in English Language Arts from 2017 to 2018 student group placements remain in the low and very low status levels. Again, this indicates a need for an improvement to First Best Instruction and targeted intervention.
5. Students with disabilities reported a decline of 13.2 points in Mathematics achievement.
6. All student groups declined in Distance from Standard Met in Mathematics.
7. This is the first year for the ELPI indicator. Results reported are baseline.
8. Current reclassification rate is 14.4% and the Riverside County average rate is 12.3%

# Goals, Strategies, & Proposed Expenditures

## Goal 2

Increase Parent and Community Partnerships

### Goal Statement

Painted Hills Middle School will include the four mandatory Title I components in their parent involvement and Participation Site Plan. These include; (1) involve parents in the Title I program; (2) create a school-parent compact will parent input; (3) build capacity for parent involvement; and (4) assure accessibility and opportunities to the school for parents. The PHMS plan is aligned with the PSUSD district parent involvement plan.

### LCAP Goal

Palm Springs Unified School District will collaborate with families and our local communities to ensure all students are actively engaged in learning and connected in meaningful ways to their school community.

### Identified Need

Two years ago the Painted Hills Middle School Parent Student Teacher Association (PSTA) was founded. This organization has worked hard to galvanize parent support on the PHMS campus. Despite these valiant efforts parent participation is still not at an acceptable level. Parent teacher conference attendance yielded the following participation markers: Fall 2018- 52% and Spring 2019- 42%. During the 2018/19 school year plans were made to provide parent computer classes in the school's parent center. Meeting times were changed to accommodate parent participation however overall attendance was very low. For the last five months of the 2018/19 school year Wakanda Academy provided social emotional support to African American students and their families attending PHMS. Meeting times were varied in an attempt to attract parent participation including Saturday morning. Despite these efforts the average attendance for these meetings averaged 20 people including students.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

Maintain Healthy and Safe Learning Environment

### Goal Statement

All students attending Painted Hills Middle School will be educated in a safe bully-free and drug-free learning environment.

### LCAP Goal

Palm Springs Unified will provide students with a clean, healthy, physically and emotionally safe learning environments.

### Identified Need

The number of students being suspended from school for different education code infractions remains unacceptably high. To address these high numbers of suspensions all staff members were provided with professional development on restorative practices in an effort to galvanize teacher student relationship building and repair relationships when students engage in egregious behaviors while attending school. In addition, all Painted Hills Middle School staff members have been trained in the EDGE teacher/student coaching framework to enable staff to support students in personal goal setting around academic improvement and social emotional development. The goal is to reduce the number of suspensions assigned to students for egregious behaviors and provide interventions that focus on restorative conversations and practices that support students in making appropriate decisions regarding their behavior and response to different stimuli.

Panorama survey results reflect a decrease in the favorable school connectedness and school safety ratings reported by students. Bullying continues to be a significant issue at Painted Hills Middle School so a student mentoring program will be introduced at the beginning of the 2019/20 school year. A cohort of 8th grade students will be trained to serve as peer mentors for incoming sixth grade students. Safe Space classrooms will continue to be provided by staff members so that students may share incidences of bullying and receive support in a safe, and trusting environment. A wide variety of after school activities are planned for the 2019/20 school year in an attempt to increase overall school connectedness and attendance.

## Planned Strategies/Activities

### Strategy/Activity 1

All students attending PHMS will wear a school issued identification card suspended in a plastic pouch from a purple Panther lanyard. This action will promote a safe campus for all students.

#### Students to be Served by this Strategy/Activity

- ☒ English Learner
- ☒ Foster Youth
- ☒ Low Income
- ☒ Students with Disabilities

#### Timeline

07.01.19- 06.30.20

#### Person(s) Responsible

Mr. Lon Mercer-PHMS ASB representative; Dr. Michael Grainger- Principal

#### Proposed Expenditures for this Strategy/Activity

Amount	2242.00
Source	LCFF
Budget Reference	4000-4999: Books And Supplies
Description	The dissemination and management of student identification cards is managed by ASB and site funds are not used to facilitate this process. All students are provided with one free ID at the beginning of the school year. This first ID will be paid for using these assigned funds.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 3 Classroom Teachers
- 2 Other School Staff
- 3 Parent or Community Members
- 3 Secondary Students

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Mrs. Teena Hood		X			
Ms. Barrie Sachs		X			
Mrs. Andrea Silva		X			
Ms. Rebecca Moreno			X		
Miss. Jasmin Sanchez					X
Miss Danika McCubbin					X
Master Phillip Ammeter Welch					X
Mrs. Jennifer Sugarman		X			
Mrs. Sonya Singh				X	
Mrs. Stacey Dubyak				X	
Dr. Michael Grainger	X				
Mr. Herb Moon				X	
<b>Numbers of members of each category:</b>	<b>1</b>	<b>4</b>	<b>1</b>	<b>3</b>	<b>3</b>

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

## Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**

**Committee or Advisory Group Name**

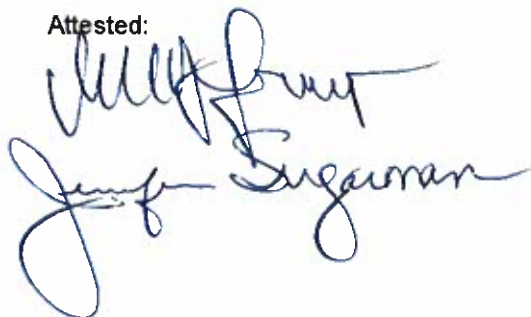

English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 10.14.19.

Attested:

Principal, Michael J Grainger, Ed.D on 10.14.19

SSC Chairperson, Mrs. Jennifer Sugarman on 10.14.19

# Instructions

The School Plan for Student Achievement (SPSA) is a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement. SPSA development should be aligned with and inform the Local Control and Accountability Plan process.

The SPSA consolidates all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), and for federal school improvement programs, including schoolwide programs, Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), and Additional Targeted Support and Improvement (ATSI), pursuant to California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA). This template is designed to meet schoolwide program planning requirements. It also notes how to meet CSI, TSI, or ATSI requirements, as applicable.

California's ESSA State Plan supports the state's approach to improving student group performance through the utilization of federal resources. Schools use the SPSA to document their approach to maximizing the impact of federal investments in support of underserved students. The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

The LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement. Consistent with EC 65001, the Schoolsite Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications to the plan that reflect changing needs and priorities, as applicable.

For questions related to specific sections of the template, please see instructions below:

## Instructions: Linked Table of Contents

The SPSA template meets the requirements of schoolwide planning (SWP). Each section also contains a notation of how to meet CSI, TSI, or ATSI requirements.
